PROFILE

Creative and detail-oriented Junior Architect with 2+ years of experience supporting design-and-build projects across residential, commercial, and hospitality spaces. Skilled in translating concepts into technical drawings, 3D models, material specifications, and project documentation. Strong problem-solving, visualization, coordination, and presentation skills with practical knowledge of building codes and project delivery workflows.

PROFESSIONAL EXPERIENCE

Junior Architect / Interior Designer

PT Ruang Kreasi Nusantara | Solo, Indonesia | Jan 2024 – Present

- Developed conceptual layouts, mood boards, space-planning studies, and design proposals for residential and commercial projects.
- Produced architectural and interior technical drawings, including plans, elevations, sections, furniture layouts, and detail drawings.
- Created 3D models and visualizations using SketchUp and Revit to communicate design intent to clients and project teams.
- Coordinated design revisions with clients, contractors, suppliers, and project delivery teams from concept through implementation.
- Prepared material, furniture, lighting, fixture, and accessory specifications and assisted procurement activities.
- Monitored project progress, finish schedules, and drawing/document revisions to support timely project delivery.

Architectural Design Assistant

CV Arsitek Studio | Yogyakarta, Indonesia | Jul 2023 – Dec 2023

- Supported senior architects in developing preliminary concepts, space planning, and design alternatives.
- Prepared AutoCAD drawings and SketchUp models for residential renovation and small commercial projects.
- Assisted with site measurements, material research, quantity checks, and presentation boards.
- Communicated drawing updates and technical requirements to contractors and suppliers.

EDUCATION

Bachelor of Architecture (S.Ars.)

Universitas Sebelas Maret | Surakarta, Indonesia | 2019 – 2023

Relevant coursework: Architectural Design, Building Construction, Interior Design, Building Services, Urban Planning, Building Regulations.
