Available to join ASAP

PROFESSIONAL SUMMARY

Junior Architect / Interior Designer with 2+ years of hands-on design-and-build experience in residential, commercial, and hospitality projects. Experienced in conceptual design, space planning, 3D modelling, technical/working drawings, material and furniture specification, supplier coordination, project monitoring, and client presentations. Proficient in **AutoCAD, SketchUp, and Revit**. Creative, resilient, detail-oriented, and solution-focused, with working knowledge of building codes, accessibility, fire-safety, and project regulatory requirements. Available to join immediately.

KEY COMPETENCIES

- **Concept & Creative:** Concept Development, Interior Concept, Space Planning, Mood Board, Design Ideation
- **Visualization:** 3D Modelling, Architectural Visualization, SketchUp, Revit, Presentation Boards
- **Technical:** AutoCAD, Working Drawings, Plans, Elevations, Sections, Detail Drawings, Construction Documentation
- **Project Delivery:** Project Planning, Implementation Monitoring, Finish Schedule, Design Revision, Site Coordination
- **Procurement:** Material Specification, Furniture, Lighting, Fixtures, Accessories, Supplier Sourcing & Coordination
- **Professional:** Client Communication, Presentation, Problem Solving, Project Coordination, Team Collaboration

PROFESSIONAL EXPERIENCE

Junior Architect / Interior Designer

PT Aruna Design & Build — Solo, Indonesia | January 2024 – Present

- **Conceptual Design:** Developed conceptual designs, design narratives, mood boards, layouts, and space-planning alternatives based on client requirements and project constraints.
- **Technical Drawing:** Produced and revised AutoCAD working drawings including floor plans, elevations, sections, ceiling plans, furniture layouts, and construction details.
- **3D Modelling:** Created SketchUp and Revit models for architectural and interior spaces to validate dimensions, circulation, materials, furniture, and design intent.
- **Project Management:** Supported project planning, implementation, progress monitoring, design revisions, and coordination from concept development through project handover.
- **Materials & Procurement:** Researched and compared finishes, fittings, furniture, lighting, accessories, and decorative materials; coordinated specifications with suppliers and procurement teams.
- **Project Delivery:** Prepared finish schedules and coordinated drawings/specifications with contractors, suppliers, project delivery teams, and facilities stakeholders.
- **Problem Solving:** Identified design and site issues, proposed practical alternatives, and coordinated solutions while maintaining design quality, schedule, and project requirements.

Architectural Designer

Studio Forma Architecture — Yogyakarta, Indonesia | July 2022 – December 2023

- Supported senior architects in developing residential, retail, and office design concepts from initial brief through design development.
- Prepared AutoCAD technical drawings and SketchUp 3D models for client presentations, construction coordination, and design reviews.
- Conducted site measurements and surveys, checked existing conditions, and translated site information into architectural drawings.
- Assisted in selecting materials, finishes, furniture, lighting, and architectural accessories according to design concepts and project budgets.
- Coordinated drawing updates with contractors and suppliers and assisted with site progress monitoring and issue resolution.

EDUCATION

Bachelor of Architecture (S.Ars.) — Universitas Sebelas Maret, Surakarta

2018 – 2022 | Relevant subjects: Architectural Design, Interior Design, Building Construction, Building Services, Building Regulations, Project Management.

SOFTWARE & TECHNICAL KNOWLEDGE

AutoCAD	Advanced	Technical / Working Drawings
SketchUp	Advanced	3D Modelling & Visualization
Revit	Intermediate–Advanced	BIM / Architectural Modelling
Adobe Photoshop	Intermediate	Presentation & Visualization
Adobe Illustrator	Intermediate	Presentation Boards
Microsoft Office	Advanced	Documentation & Project Reporting

SELECTED DESIGN & BUILD PROJECTS

- **Modern Tropical Residence — 450 m²:** Concept development, space planning, Revit/SketchUp modelling, technical drawings, material selection, and site coordination.

- **Boutique Hotel Interior — 1,200 m²:** Interior concept, furniture and lighting specification, finish schedule, supplier coordination, and design presentation.
- **Commercial Office Fit-Out — 650 m²:** Space planning, working drawings, 3D modelling, material board, procurement support, and project progress monitoring.

REGULATORY & PROFESSIONAL KNOWLEDGE

Working knowledge of Indonesian building and interior project requirements, including basic spatial standards, accessibility considerations, fire-safety provisions, construction documentation, and coordination with project stakeholders. Strong interpersonal and presentation skills with a continuous-learning mindset.
